Cash equivalents in Level 1 are comprised of money market mutual funds that are reported at fair value using net asset value as a practical expedient as prescribed by the NAIC.

Level 2 Valuation Methodologies

Below is a summary description of the valuation methodologies primarily used by the pricing services for bonds included in the Level 2 category, by security type:

U.S. Government obligations, including treasury bills classified as cash equivalents and/or short term investments, are valued based on quoted prices for identical assets, or, in markets that are not active, quotes for similar assets, taking into consideration adjustments for variations in contractual cash flows and yields to maturity.

Short term investments in Level 2 are evaluated using the same methodology previously described for U.S. Government-sponsored enterprise obligations.
